## TEACHERS GUESTS OF ROTARY CLUB

Program of Songs And Addresses  
Follows Banquet at The First  
Methodist Church.

### TRIBUTE PAID TO SCHOOLS

Necessity of Keeping Teaching Pro-  
fession Attractive to Young Peo-  
ple Emphasized by Speakers.

The members of the city school board and a large number of the teachers in Seymour were guests of the members of the Seymour Rotary Club and their wives at a banquet at the First Methodist church Tuesday night. The banquet was arranged by the Rotary Club in observance of Teachers' Week. The program was given over to a discussion of the needs of the school and the teaching profession.

Following the service of the excellent banquet by the Ladies' Aid Society of the church, L. C. Griffiths, president of Seymour Rotary Club, explained the purpose of the meeting. He paid a tribute to the schools and the efficiency of the superintendent and the corps of teachers. He said that the Rotary Club desired to aid in any movement that would operate for the improvement of the schools of the city and extended a cordial welcome to the visitors.

E. P. Elsner was the first speaker of the evening. He explained the operation of the minimum teachers' salary law passed by the last Indiana legislature of which he was a member. He said that teachers and preachers were the poorest paid professions today and that none was as important as these. He advocated larger salaries for teachers and said that the minimum salary law did not mean that the minimum amount specified had to be paid, but was a safeguard for teachers that their compensation would not be below that figure.

John A. Shields spoke of the urgent need of improving rural schools in this part of the state. He referred to the recent address of Ben-

## FIRE TRUCK FAILS FOR FIRST TIME IN THREE YEARS

Defective Battery Wiring Prevents  
Truck Answering Call to Home  
of Mrs. Mary Schulte.

For the first time in the three years that the motor fire truck has been in operation at the Seymour department it refused to respond when an alarm was sent in at 7:30 Tuesday evening calling the firemen to the home of Mrs. Mary Schulte at 522 South Walnut street. However, the alarm was sent in when sparks from burning soot were seen flying out of a chimney and no damage was done to the dwelling. Mayor C. W. Burkart was at the city building when the alarm was sent in and took the chemical in the police car to the Schulte home arriving after the soot had burned out. He was accompanied by three men.

Fire Chief Melvin Jerrell and his men worked with the car for several minutes and were unable to start the engine. Finally the old hose cart was pulled out and a number of men volunteered to help pull the hose to the fire scene. However, they were stopped enroute there and notified that the fire was out.

It is pointed out that the fire departments in other cities often meet with such trouble as that experienced by the local fire department last night and the firemen feel that they have been lucky not to have had similar trouble before. The truck was running in fine shape Tuesday morning when driven to a gasoline filling station and the car's failure to respond last night was a big surprise to the members of the fire department. An automobile mechanic was called and soon discovered the trouble and the car is now in good condition for service.

## SIMS AGAIN CRITICIZES THE NAVY DEPARTMENT

Testifies That Delay Cost Allies 500,000 Lives and 2,500,000 Tons of Shipping.

By United Press  
Washington, March 10.—Blame for a loss to the allies of five hundred thousand lives, 2,500,000 tons of shipping and \$15,000,000 was laid on the navy department today by Rear Admiral Sims. This terrible cost, he said, resulted from failure of the navy department to take prompt action against the German submarine menace.

America could have landed one million men in France by March, 1918, instead of 300,000, and forced a German surrender by July, 1918, instead of in the following November, Sims asserted.

"These are conservative estimates based on official figures," he added, reading cables and letters which he sent to the navy department on his arrival in London pleading that every destroyer and light vessel available for anti-submarine service be rushed to the European waters.

Control of the sea was imperiled and allied communications threatened, one cable to the department declared. "My policies were finally adopted, but four or six months late," Sims said.

## AERIAL MAIL PILOT FALLS TO DEATH NEAR NEW PARIS

Lieutenant Stoner, Enroute From  
Chicago to Cleveland, is Burned  
To Death.

By United Press  
Elkhart, Ind., March 10.—Lieutenant Stoner, United States mail pilot, enroute from Chicago to Cleveland, was burned to death this morning when his plane fell in a wooded stretch, six miles west of New Paris, Ind. The gasoline tank exploded when the machine struck the ground and Stoner was incinerated, the plane being destroyed by the flames.

Farmers said the pilot evidently was having trouble with his engine for they heard him circling around in the fog in an evident attempt to pick a good landing place. They said the engine missed several times and finally stopped. The plane then dropped into the woods.

## AFFIDAVIT IN NEW CASE.

Defendant Says Freda Lesser Com-  
mitted Suicide.

By United Press  
Los Angeles, March 10.—In an affidavit made public here today, Miss Edna Clancy declared her half-brother, Harry New, told her he did not kill his sweetheart, Freda Lesser, for whose murder he is now serving a sentence. Believing himself about to die, according to Miss Clancy's affidavit, New made a statement to her recently in which he said Miss Lesser committed suicide because he told her he would not have anything more to do with her, after she told him she had not been true to him. New's attorney recently appealed for a new trial.

## Presbyterian Church.

The third of the series of Lenten services will be held this evening at 7:30. In our study of the "Seven-folds I am of Christ" we shall consider the saying of the Master "I am the door." The session is asked to meet following the study hour for the transaction of important business in connection with the coming annual church meeting. The choir is also asked to meet for practice.

## TEACHERS TO GET HIGHER SALARIES

Instructors in City School Each to  
Receive \$10 a Month Additional.  
Effective March 1.

## ANNOUNCEMENT BY TRUSTEES

Further Boost in Salary Scale is  
Considered by Board for Year  
Beginning in September.

The movement which was recently inaugurated by the state board of education to secure increases in salaries paid to public school teachers has already resulted profitably to the local instructors. Effective March 1, the teachers in the Seymour schools will receive an additional \$10 a month in pay. The announcement of the higher scale of wages was made by Claude Carter, president of the board of trustees, at the Rotary Club banquet for the teachers at the First Methodist church Tuesday night. The announcement came as a very pleasant surprise to the teachers and was greeted with applause.

Mr. Carter, speaking for the other members of the school board, said that the increase had been under consideration for some time and it had been decided to announce it at this time because of the state-wide observance of "Teachers' Week." He added that the new scale was to

## PRAISE FOR THE S. H. S. BASKETBALL QUINTET

Bedford Democrat Says Local Boys  
Were Ideal Bunch of Youth-  
ful Athletes.

Referring to the Seymour basketball team the Bedford Democrat says:

The losers, who drew the hardest schedule in the local tournament, were a clean and ideal bunch of youthful athletes and displayed a fighting spirit throughout the tournament that won the respect of all fans who witnessed them play. They were unfortunate in having one of their regulars on the sick list Saturday night and another suffering from slight injuries due to an accident in the game with West Baden Saturday afternoon, but despite these handicaps both players above mentioned, as well as the other members of the team, stuck gamely to their task throughout the final battle and never let up for a moment until the final gun was fired.—Bedford Democrat.

## INFORMATION ON TAX LAW DESIRED

Legislative Committee of Farmers' Federation Seeks Explanation  
of Disputed Points.

## CONFERENCE IS HELD HERE

Live Stock Division Discusses Ways  
of Better Distribution for  
Purposes of Sale.

Believing that certain sections of the Indiana tax law should be explained more fully, the legislative committee of the Indiana Farmers' Federation at a conference at the Farmers' Club in this city Tuesday, decided to ask the state board of tax commissioners to give additional information relative to several provisions of the act which have been in dispute. The state legislative committee will take up the matter in the near future and place its request before the state board. The question was discussed at some length by the members of the committee who attended the meeting here and it was determined that until some improvements in the present law could be definitely recommended no changes would be urged.

"It seems to be the general sentiment that the new tax law at this time is a conundrum rather than a measure to be attacked and revised"

## DISCUSSION OF ARTICLE 10 RESUMED BY SENATE

This Clause of Treaty May Become  
Faramount Issue of Presi-  
dential Campaign.

By United Press  
Washington, March 10.—The senate today took up article 10. The question on which the coming presidential campaign may turn and upon which ratification of the treaty hinges is now before the senators.

No senator dared predict whether the difference separating the two parties will be reconciled in some of compromise reservations on this article adopted. But the belief is general that if a so-called compromise is agreed to it will mark a surrender by one side of the other of the principles which they have repeatedly declared to be vital and never to be surrendered. The question today is just what it was last November, simply: shall the United States, assume an obligation to help protect other nations against warfare or shall it refuse that obligation?

## SUFFRAGE AMENDMENT MAY BE RATIFIED BY APRIL

Leaders Confident of Victory in Delaware and Washington—  
Thirty-six States Needed.

By United Press  
Washington, March 10.—Suffrage leaders today were confident that the constitutional amendment granting votes to women will be finally ratified by April. A suffrage victory in West Virginia after one of the most dramatic fights of the long campaign will make 34, only two are necessary for ratification.

The legislature of Delaware and Washington will meet this month to consider suffrage. Final ratification of suffrage by April will bring into both conventions and the November elections the full influence of millions of women voters.

## DETROIT "REDS" UNDER ARREST ON HUNGER STRIKE

Alleged Radicals Refuse to Stoke  
Boilers Which Heat  
Their Rooms.

By United Press  
Detroit, March 10.—Detroit "reds" held at Ft. Wayne have been on a hunger strike for two days it became known today. More than 200 alleged radicals are involved it was said. The action of the alleged "reds" came Monday after federal officials have tightened the regulations governing visitors to the prisoners. The escape of five men from the stockade in the past few weeks was believed due to work of visitors. The strikers also refuse to stoke the boilers which heat their rooms. The strikers will be allowed to meditate in cold and hunger, the chief immigration officer said.

Mr. and Mrs. Henry Pollert have received word from their son, Alfred that he will soon leave for Panama. He is now located at Jackson Barracks, La., with the Panama Replacement Detachment. Private Pollert was in the service and was sent to France arriving there about three weeks before the armistice was signed and arrived back in the states, receiving his discharge, the latter part of October. He remained with his parents until New Year's Day when he again enlisted. Young Pollert when he enlisted January 1st, stated that he thought he would start the new year right. He ranked as sergeant when he received his discharge in October.

No cases have been set down for trial in the Jackson circuit court for the remainder of this week. The last two weeks of the February term promise to be the busiest of the entire session as a number of cases have been set for trial. The court business for the term has been the lightest in years.

The city council will meet in regular session at the city building this evening. The session will likely be a short one as very little business is slated to come before the councilmen for transaction.

## NO MENTION MADE OF RUSSIA IN REPORT

Recommendations Drawn up By  
Council of Premiers on World  
Economic Conditions.

## DEMOBILIZATION IS URGED

Agree There Are No Short Cuts to  
Rehabilitation and Reduc-  
tion of Prices.

By United Press  
London, March 10.—Political observers here today considered it significant that the declaration on economic conditions in the world, as drawn up by the council of premiers and made public here last night, makes no specific recommendations regarding Russia and mentions the soviet nation only by pointing out that it has armies of more than 1,500,000 men in the field, demobilization of which is a primary condition for European peace.

It had been believed that the note would treat Russia in considerable detail, amplifying the council's earlier recommendations for resumption of trade between the soviet and the outside world. Some observers were inclined to look upon the manifesto's failure to take up Russia more extensively as a concession to France. Its recommendations regarding Germany, these observers said, were hard enough for the French to accept without asking them to go further at this time and back down in their position toward Russia.

The manifesto covers the present world commercial situation comprehensively—especially as to conditions in Europe. It does not, however, as had been forecast in some quarters, provide for any general pooling and re-distribution of food-stuffs and supplies of raw materials of the different nations.

The recommendations are general rather than specific. The suggestion that Germany be allowed to borrow abroad does not mention any exact plan by which this measure might be carried out.

The council agrees there are no short cuts to Europe economic rehabilitation and to reduction of prices. It believes, however, that general demobilization, particularly in eastern Europe and Russia, will be a vital step toward this end and recommends that:

Armies everywhere be reduced to a peace footing and armaments everywhere be limited to a point as low as compatible with safety.

New states establish friendly co-operation and take steps to resume industry and increase their industrial production.

Extravagance be suppressed throughout the world, expenditures reduced and steps taken to obtain deflation of currencies by reduction of governmental expenditures.

Taxes be increased where necessary and provisions made to obtain commercial credits despite the exchange situation. Removal of trade obstacles making easy the exchange of essential commodities, it believes, is one step to this end.

Devastation regions be restored through loans, in anticipation of Germany's reparations payments. An extension of time is allowed Germany to make proposals for fixing total reparations.

BODY OF EDWARD LAHRMAN  
ARRIVES FROM WASHINGTON

Former Resident of County Was  
Crushed by Logs—Funeral  
This Afternoon.

The body of Edward Lahrman, a former resident of Jackson county, arrived here from Carlisle, Washington, Tuesday evening and was taken to the home of the deceased's sister, Mrs. William Buening, on East Fifth street. The funeral service was held from the home at 1:30 this afternoon, conducted by Rev. W. E. Carroll, pastor of the Central Christian church. The body was taken to Brownstown for burial in Fairview cemetery.

According to information received here, Mrs. Lahrman was crushed by logs. He was employed as conductor on a private railroad owned by a big lumber company at Carlisle, Washington, and it is supposed that he met with the fatal accident while at work. The deceased is survived by a daughter, a sister, Mrs. William Buening, of this city, and two brothers, George of this city, and Henry Lahrman, of Elwood.

AMAZING SUCCESS HAS BEEN  
ACHIEVED BY FAMOUS TANLAC

## FACTS ABOUT TANLAC.

Sixteen million bottles sold  
in five years.

At present rate of sales  
grand total will reach 20,000,  
000 bottles by end of present  
year.

Large and modern laborato-  
ries at Dayton, Ohio, occupy  
60,000 square feet of floor  
space.

Capacity of plant recently  
doubled to take care of rapidly  
increasing business. Present  
capacity 36,000 bottles daily.

Branch plant recently estab-  
lished in Canada, with a capac-  
ity of 8,000 bottles daily.

Demand for preparation has  
broken all world's records for  
same length of time, and is con-  
stantly increasing.

Publicly indorsed through  
the daily press by men of  
prominence throughout the  
United States and Canada, in-  
cluding supreme court judges,  
mayors of leading cities, law-  
yers, doctors, bankers, state  
and government officials, prom-  
inent educators and well-known  
ministers of the Gospel.

Now sold from coast to coast  
and from Gulf to Great Lakes,  
throughout the United States  
and Canada.

Tanlac is purely vegetable  
and is composed of the most  
beneficial roots and herbs  
known to science. Formula  
complies with all national and  
state pure food health laws of  
United States and Canada.

Absolute merit responsible  
for unprecedented success.

WORLD'S RECORD  
BROKEN BY TANLAC

Over Four Million Bottles Sold in  
1919—the Fifth Year of Its  
History.

Tanlac has brought a new romance  
to the commercial world. It is the  
story of an acceptance and appre-  
ciation of merit never before attained  
by a proprietary medicine. Staid  
business men to whom the actual  
figures of the production of Tanlac  
have been presented have scouted  
them until the proof was shown. The  
production of Tanlac now stands at  
the rate of almost four million bot-  
tles per year. The exact figures are  
3,992,800. The sale of a million bot-  
tles in the first nine months, which  
far exceeded any record ever made  
by a proprietary medicine, now  
seems insignificant.

## Over 17,000 Bottles a Day.

The sale for the first ten weeks of  
last year amounted to over One  
Million bottles, an average of over  
one hundred thousand bottles per  
week, which is at the rate of more  
than seventeen thousand bottles per  
day, and the total sales for 1919, the  
fifth year of Tanlac's history, was  
more than four million bottles. It  
seems almost incredible, but these  
are actual figures and such is the  
record established by this wonderful  
medicine.

"One firm alone," said Mr. G. F.  
Willis, the international distributor  
of Tanlac, "has given orders for a  
total of 150,000 bottles within eight-  
teen months' time. The firm I refer  
to is the Spurlock-Neal Co., of Nash-  
ville, Tenn. Mr. C. S. Martin, presi-  
dent of this great firm, who is also  
president of the Southern Drug Job-  
bers' association, will verify this  
statement."

"Tanlac is the result of many  
years of arduous study by Mr. Cooper  
and his principal chemist. In fact,  
the two of them have carefully  
watched its development from the  
beginning of the experimental stage  
to its present state of efficiency. So  
remarkable have been the results ob-  
tained from this medicine that I  
doubt seriously if either of these  
men realize the immensity of their  
success. Like many other great  
discoveries, it has required time to  
prove its far reaching effects."

Tanlac, the Celebrated Medicine Which Has Been Accom-  
plishing Remarkable Results in the United States and  
Canada, Will Now Be Sold in Seymour by E. F. Max-  
on.—Remarkable Sales Record of Sixteen Million Bot-  
tles Phenomenal and Unprecedented.

Tanlac, the celebrated medicine which has been ac-  
complishing such remarkable results throughout the United  
States and Canada, and which has been having a phe-  
nomenal sale wherever it has been introduced, will now  
be sold in Seymour by E. F. Maxon. The amazing suc-  
cess achieved by this medicine in only five years time is  
not only phenomenal, but unprecedented.

The discovery of Tanlac, the beginning of its manufac-  
ture, the establishment of the large and modern labora-  
tories at Dayton, Ohio, occupying more than 60,000 feet  
of floor space, reads more like fiction than facts from lat-  
ter-day commercial history.

## Sixteen Million Bottles Sold in Five Years.

Although placed on the market but little more than  
five years ago, over sixteen million bottles have been sold,  
and its sales record probably has never been equaled in the  
history of the drug trade in America.

From coast to coast and from Gulf to the Great Lakes,  
Tanlac is known and honored. Millions have taken it and  
have pronounced it the greatest medicine of all time. No  
matter where you go throughout the United States,  
whether East, West, North or South, Tanlac is a house-  
hold word and is now unquestionably the most widely  
talked of medicine in the world today.

Briefly, this is the record of the truly marvelous medi-  
cine which will now be placed within the reach of every  
one. In only a few weeks' time it will be placed on sale in  
practically every large city, town, village and hamlet  
throughout the entire section.

### INFORMATION ON TAX LAW DESIRED

(Continued from first page)

until we know definitely what amendments ought to be made," declared J. E. Leavitt, of Vernon, a member of the committee. There has been quite general objection to what is termed 'centralization of power' but after we view the subject from all angles we find that this so-called centralization may not be the conferring of power in a single body in Indianapolis, but a means to protect local government. This is just one of the points discussed. Nobody so far has been able to offer any amendments that will be an improvement over the present law. The members of the legislative committee who met here believed that the proper course to take is to see how the law operates and then decide what is necessary to remedy the defects. We feel that the state board of tax commissioners, has not given a full explanation to the public and that some of the provisions which have which have been bitterly criticized may have some good features that the public will want to retain if amendments are made later.

The report of the committee here will be filed with the state legislative committee of the Farmers' Federation and the request for additional information will go to the state board.

The live stock committee of the Federation also held an interesting session. The purpose of the meeting which was called by J. G. Klein, district chairman, was to discuss ways and means of obtaining better sales facilities for the farmers. The stockyards at Indianapolis, it is said are frequently so congested that stock which is received there is sold below the market price because it cannot be handled promptly.

Several ways to overcome the condition complained of have been suggested, and a definite plan will likely be adopted soon. One plan which apparently met with the favor of the farmers was the establishment of a

stock yards either here or at North Vernon. Stock delivered there would be sold direct to the buyers. In this way the congestion frequently found in the larger stock yards would be relieved and it is thought the farmer would be insured of securing the top market price for his stock. Nothing definite was done at the meeting yesterday, it is said, and a report will be made to the general live stock committee of the state organization.

### TEACHERS TO GET HIGHER SALARIES

(Continued from first page)

be used as the basis for salaries for the year beginning in September and that the board hoped to announce another substantial advance at that time. However, nothing definite has yet been done relative to the scale for the coming school year.

In commenting on the action of the board, Mr. Carter recalled that an advance in wages of teachers was made the first of the present school year, following the enactment of the teachers' minimum wage law by the last Indiana legislature. "The board desires to make the teaching profession as attractive as possible," Mr. Carter said, "and will do everything we can to make it profitable. The Seymour schools have a splendid corps of teachers and we appreciate their earnest service."

The Seymour public schools have always been conducted on a very economical scale and the cost per pupil, exclusive of interest on indebtedness, is lower than in the majority of other cities of this class. The board has received figures which shows that the per capital cost in Columbus is \$44.31, compared to \$30.16 in Seymour. In other cities of this size the cost per pupil is shown as follows:

Shelbyville, \$38.34; Greensburg, \$41.27; Aurora, \$43.90; Noblesville, \$43.47.

In speaking of the needs of the city schools Mr. Carter referred to the condition of the Laurel street school and said that in the very near future a modern ward building would have to replace the present structure. A lot adjoining the old building was bought by the school board several years ago with the view of erecting a new building, but because of the advance in the cost of building materials, the original plan was temporarily abandoned and the residence on the lot was arranged to meet emergency needs. Mr. Carter also spoke of the need of a new gymnasium in Seymour.

### A CORDIAL WELCOME

To Be Extended Associated Advertising Clubs in Indianapolis.

By United Press  
Indianapolis, March 10—While the Associated Advertising Clubs of the World is holding its convention here June 6-10, the delegates will be shown the greatest welcome and courtesy the citizens of Indianapolis can extend to them.

This announcement was made here by the chairman of the "courtesy committee," recently formed in lieu of the usual reception committee that welcomes conventions.

According to preliminary plans made by the committee, every street car motorman and conductor, every taxicab driver, policeman, fireman, messenger boy, newsboy, clerk and business man and members of the various labor organizations will be enlisted as members of the committee to aid in the huge plan of reception to be awarded the ad men. It is estimated that at least 15,000 citizens will form the courtesy committee.

Information of Priceless Value to Every Seymour Citizen.

How to act in an emergency is knowledge of inestimable worth, and this is particularly true of the diseases and ills of the human body. If you suffer with kidney backache, urinary disorders or any form of kidney trouble, the advice contained in the following statement should add a valuable asset to your store of knowledge. What would be more convincing proof of the efficiency of Doan's Kidney Pills than the statement of a Seymour citizen who used them and who publicly tells of the benefit derived?

Mrs. Julia Smith, 14 Booth St., Seymour, says: "I have taken Doan's Kidney Pills for backache and other troubles caused from weak kidneys. I have always found that Doan's Kidney Pills, taken according to directions, will do all that could be wished for. Doan's are fine and I gladly recommend them."

### TEACHERS GUESTS OF ROTARY CLUB

(Continued from first page)

Jamin Burris, assistant state superintendent, before the Chamber of Commerce here who declared that many buildings were little more than shacks. Scores of others are inadequately equipped and that under these conditions the best school work could not be done.

T. A. Mott, superintendent of the city schools, spoke of the preparation necessary for a teacher of today to hold a position in the public schools and said that the present salaries were too low to be attractive to young people who were required to spend large sums of money in preliminary training. He urged that the profession be made so attractive that young people will desire to enter it as it will be profitable and will hold a future for them.

Miss Kate Andrews, principal of the Shields high school, said that the word teacher was a relative term, and that the public has in mind the future of the child. She pointed out the necessity of securing well trained, competent teachers for all schools so that the coming generation may be properly trained and equipped to take their places in business and professional life. She referred to the necessity of a larger gymnasium and said many boys in the high school had come to her and asked where they could spend their evenings since they were barred from the pool rooms.

Albert Wilde, of the Lutheran parochial school, gave some interesting statistics relative to the teaching profession. He pointed out that other professions were drawing heavily from the teaching forces of the country as the salaries were considerably higher and that teachers, because of their training, were equipped to take up other work.

Other addresses were given by representatives of the different buildings as follows: Park, Miss Sarah B. Frey; Third Ward, Miss Rose Hirtzel; Laurel, Miss Katherine Vosbrink; High school, Miss Margaret Remy.

The Rev. J. H. More said that the time had come when the public must give more attention to the school system. He emphasized the fact that the schools are a very important agency in character building as well as educational training. The need of systematic physical training

was also mentioned by Mr. More and he advocated the employment of a physical director in the public schools.

Claude Carter, representing the school board, announced that the trustees at their meeting on Monday had advanced the teachers' wages \$10 a month and that additional compensation would likely be paid next year. He also pointed out the necessity of a new gymnasium and said that the time is near when a new school building must take the place of the Laurel building.

Nathan Kaufman made an appeal for an improvement in the teaching conditions and urged immediate action which will result in higher wages. He pointed out that the teachers aid the parents in guiding their children through their most important years and that the best talent possible ought to be secured.

Will Densford moved that the president appoint a committee to draft resolutions favoring increased salaries for school teachers in Seymour, and the motion was carried unanimously.

During the evening members representing the Monday Musicale Club favored the banqueters with a beautiful selection. Miss Adelaide Gasaway also sang a solo which was much appreciated. The program was interspersed with Rotary songs.

### High School Notes.

By Dorothy Spanagel.

Those who attended the basketball tournament from Seymour were Margaret Guthrie, Agnes Andrews, Earl Parker, Shirley Faulkner, Malcolm Rout, Jack Shiel, Charles Maple, Ed Massman, Maurice Mackey, Oscar Fenton and Ray Julian.

The Seniors held a meeting Wednesday afternoon and it was voted, in order to obtain money for the Patriot, to give two class plays this year instead of one. Work will be begun immediately upon the plays.

For the purpose of selling Annals it was decided to divide the Seniors into two groups, one under the

leadership of Doris Norbeck, the other under that of Oren Lewis. The losing group will give a banquet for the winning. Much friendly rivalry is going on among the Seniors as of course each team is confident that it will be given the banquet.

As Friday marked the end of the first six weeks of the second semester, reports were given out. Although there were a few sad faces to be seen the majority looked cheerful and relieved.

Mr. Henderson, agricultural teacher, and Mr. Carson, science teacher, were unable to take charge of their classes Monday on account of illness.

At the teachers' meeting last Thursday evening A. L. Frost gave an interesting talk on the Safety First Movement. Mr. Mott gave a splendid account of the national superintendents' convention held at Cleveland.

The teachers of the high school were guests Tuesday evening at a dinner given by the Rotary Club.

The whole high school wishes to extend its sincerest sympathy to Alva and Carl Rogers in the sadness which has come into their home.

We desire to thank our friends and neighbors and all those who so kindly assisted us during the illness and after the death of our mother, Mrs. James A. Rinehart. ## NORTHERN BAPTISTS MASSING FORCES IN \$100,000,000 DRIVE

**Big Sum Asked in One Movement to Fulfill Five-Year Program—Personal Service of 2,000,000 Members to Be Used to Make Huge Pledges More Effective—Education to Be Feature of Great Activity, Both in U. S. and Abroad.**

By LUPTON WILKINSON.

The 10,666 churches which constitute the Northern Baptist Convention are moving forward this spring in a program termed by their leaders one of the most significant unified advances a Christian body has ever made. Thirty-four state convention headquarters are teeming with activity and the entire strength of the denomination is marshalled, ready for a task whose size may well be called staggering.

It is now nine months since the assembled national delegates of the Northern Baptists met in Denver and after providing entirely new and modern church organization machinery set the face of 2,000,000 people toward a five year effort, necessitating expenditures that will total at least \$100,000,000. The urgency of the world situation, viewed from the Christian standpoint and made clear in detail to the convention through a 150-page itemized survey of the field's needs, has worked like multiplying leaven. Thousands upon thousands of copies of that survey have been distributed in answer to individual written requests.

The denominational program is known officially as the New World Movement of Northern Baptists. It is defined as "an attempt to apply vigorously the principles of Christianity to the problems confronting the world." The shadow of many ills, the stresses and pain of humanity, struggling to give a new order birth after the cataclysm of war has swept away old standards and safeguards, are the basic urges behind the Baptist effort.

The churches involved, believing the call to service imperative and fated only to grow larger, have decided to pledge the entire \$100,000,000 Baptist fund in one financial "drive" between April 21 and May 2. My purpose here is not to discuss the task involved in the raising of such a sum. The impetus of aid and co-operation from numerous other denominations working together in the Interchurch World Movement will aid the Baptists greatly in their money campaign, a larger one than any other denomination faces this spring.

What must interest the general public in considering the huge undertaking are some very practical questions. Through what channels does the church hope to effect the application of the Christian ideal and the Christian machinery toward a lessening of unrest? How clearly and wisely have the church leaders viewed the situation? Do they work with a seeing vision of the tremendous ground, physically and spiritually speaking, that they must cover? How definite and concrete are their plans?

No one who has read the report of the Field Survey Committee of the Northern Baptist Convention can reasonably doubt the earnestness with which the men behind the New World Movement are striving to be practical. The scope of the Americanization plans indicates the trend. Children in the Sunday-schools will be asked to treat the children of the foreign-born as friends. Baptist women will be asked to cultivate friendship as individuals with foreign-born women. Missions will be established in mining, manufacturing and logging districts where the native proportion of the population is small.

Speaking of "future citizens," the report of the committee says:

"We cannot honestly preach to them and teach them national ideals if we are silent while they, because they are strangers, are being exploited. It is our Christian duty to assist in the bettering of factory conditions, standards

of employment for women in industry, living conditions of foreigners and social, educational, civic and religious opportunities for the foreign-born."

From Czechoslovakia, from Japan, from the heart of Mohammedan Africa, observers have been writing in unanimous agreement that conditions abroad are even more unsettled than in America. The belief of the church that the Christian ideal is the one solution will make itself felt through an investment of practically \$10,000,000 for new equipment in foreign mission fields. This will be in addition to normal operating expenses. Plans include the sending out of 228 new missionary families and 176 single women missionaries and the erection of 188 missionary residences, 241 missionary schools, 76 dormitories, 75 church buildings, 5 industrial schools and 19 hospitals.

In China, one of many mission fields, five new high schools for girls will be established. "An intelligent womanhood is absolutely necessary for the permanent regeneration and Christianization of the Orient," says the report which led to this plan's adoption.

One domestic trend of the New World Movement will be a steady hammering on the problem of ministers' salaries. The average salary of the 8,823 ordained Baptist ministers in the United States is \$1,874 a year, or \$683 a year. Only eight out of every hundred receive as much as \$1,500 a year.

Many amusing and appealing letters have been received since it became known that a determined educational campaign to remedy this condition is under way. One letter from Peru, Ind., says:

"In my opinion the greatest financier of the times is not Frank Vanderlip or J. Pierpont Morgan. The wife of the average minister has all of the great financiers of the country beaten to a standstill. If the same degree of efficient management as has prevailed in the ministerial household could be applied to our industrial and political institutions we could successfully compete in the markets of the world and come off victors."

In none of the welfare features of the Baptist program will the evangelist note be subordinated. Dr. J. Y. Aitchison, director of the General Board of Promotion of the Northern Baptist Convention, has summed up as follows the keynote spirit of the effort:

"It is always necessary to remember that neither money nor buildings nor additional workers serve to express the tenets of the New World Movement. It is not a campaign. It is the advance of an ideal. The raising of the money and the spending of the money are incidental to the supreme task of offering Christianity like a healing bandage to the wounds of the world."

"We are going forward on the theory that the denomination or the church or the man who hangs back now, is what President Roosevelt would have called a 'pussy-foot'. Where Christianity dominates, there cannot be lust and greed and hate. Certainly there cannot be Bolshevism."

### MINISTERS COST LESS THAN AUTOS

World Survey Figures Reveal How Badly United States is Paying Its Pastors.

What are the chances of a young man who intends to be a lawyer of making \$3,000 a year? What are the doctor's chances? What of the minister or the manufacturer?

The lawyer has exactly one chance in five. The doctor's chances are one in seven. It is ten to one against the manufacturer. The modern minister, however, who formerly ranked with the doctor and lawyer as a member of the "learned professions," has fallen hopelessly behind. He is a 100 to 1 shot.

These figures are part of a mass of astonishing facts brought to light by the world survey being made by the Interchurch World Movement and whose sources of information are such that many economists and statisticians are availing themselves of the results. This survey puts America's minister at the bottom of the ladder of the nation's income receivers—and with responsibilities which equal those of any captain of industry.

A worker in a silk mill, a laborer in a rubber plant, a paper maker, a worker in a shoe factory—all are getting higher average wages, the survey shows, than does America's minister, city or country. Nor does the city man receive the luxurious salary that many persons, including many country parsons believe he does. Not four ministers in a thousand, according to the survey, receive \$5,000 a year. In no instance, whatever the denomination, does a majority receive \$1,000.

Cotton Pickers Better Off.  
Are you a Congregationalist? In 2,783 churches the yearly pay to your ministers has been less than \$1,000.

Are you a Presbyterian? You are then on the less than \$1,000 list with 6,415 ministers. In the event that you are a Methodist the charge is that 4,719 pastors are trying to exist on the \$20 a week that you pay them. Episcopalians do a little better, yet half of their rectors receive less than the \$1,500 a year which government economists regard as the minimum on which a family can be decently maintained.

The initial cost of the cheapest "flyver" on the market is less than \$600, but a very good, conscientious pastor it is shown, can be hired for a year for that sum.

Ministers in the South are preaching to fifty or more cotton pickers who individually are paid more for picking cotton than their entire neighborhood pays to the preacher in a year.

One of the aims of the present operation of the world's Protestant denominations is to end this disgrace of the underpaid minister. With universities, business houses and municipalities daily taking action to provide for the comfort of their workers, the church is to keep pace with the times and to arrange not only for adequate pay for its workers, but to provide pensions for those no longer able to work.

It is to move the public to prevent unfavorable comparison of pastors and puddlers. Until then, as for a puddler swapping jobs with a pastor drawing an "ordinary" salary—never! The lowest salary paid to pastors is lower than any wages paid in the entire steel industry.

### Jams, Jellies, Preserves are Too High—Blue Label Karo Solves the "Sweet" Problem at Less Cost. Important to Large Families

THE mother of a large family cannot help being worried over the extremely high prices of jams, jellies, preserves—and candy. In children especially Nature emphasizes her demand for sweets. We all need a good percentage of sweets each day.

This is the reason for the unusual present demand for Blue Label Karo—the Great American Sweet for every purpose.

INSTEAD of worrying about and paying high prices for store candy, make Karo Candy at home. It is easy to make, costs but little and its purity makes it best for children.

There is an every day use for Blue Label Karo. From breakfast—on pancakes or waffles—to dinner for cooking and baking.

# DR. RICHARDS' WORDS SHOW WHY TRUTONA OVERCOMES BAD AFTER-EFFECT OF "FLU"

"An Appetizer, System Builder, Strengtheners and Real Nerve Tonic."  
Prominent Physician Declares of Perfect Preparation—What All "Flu" Victims Need.

"As an appetizer, strengthener, system builder and real nerve tonic, I can heartily recommend and commend Trutona."

Dr. J. Richards, the prominent Tennessee physician, in making the foregoing statement, has really pronounced Trutona a remarkable treatment for overcoming serious after-effects of influenza, pneumonia and the like.

Victims of these dreaded winter maladies, after "recovering" from an attack, almost invariably find themselves possessed of little or no appetite and their systems in a dreadfully weakened, run-down and nervous, state. Considering Dr. Richards' words it is easy to understand why Trutona has proven such a remarkable remedy for overcoming these bad after effects. "An appetizer, strengthener, system builder and real nerve tonic"—these are the qualifications that have won for Trutona the unstinted praise of thousands of unfortunate influenza and pneumonia victims who have regained their health through the Perfect Tonic.

"WHAT OTHERS SAY."

Mike Hamilton, a traction company employe and well known Terre

Haute, Ind., man who lives at 418 South Pearl street, enthusiastically praising the reconstructive powers of Trutona, says:

"I can hardly realize how much good Trutona's done for me in ridding my system of the after-effects of influenza. I certainly feel different nowadays and I can highly recommend Trutona, especially as an after-the-flu medicine."

Harry Lee, 1661 Gallagher street, Louisville, Ky., a sufferer from the after-effects of pneumonia, says: "I've gained twenty-eight pounds and feel fine now—just like a new man, since taking Trutona," all of which is surely conclusive proof of Trutona's merit.

"I've found Trutona to be very efficient in overcoming after-effects of influenza," declares Mrs. Iva Gates, a well-known Peru, Ind., woman of 115 Canal street.

There are scores of other similar statements and they prove conclusively that there is no better preparation for the treatment of after-effects of pneumonia, influenza, deep colds and the like than Trutona, the Perfect Tonic.

Trutona is sold in Seymour, at W. L. Pedermann's Drug Store. m10-17

Henry, son of Mr. and Mrs. F. W. Hehman, who has been ill for several weeks, is thought to be somewhat improved.

Mrs. Charles Brook is ill. J. W. Jackson is ill at his home near White's Chapel with a complication of diseases.

Miss Callie Spradling was the guest of Miss May Fleenor Sunday.

Albert Phlegley, who has just recovered from the smallpox, had a sale of his property last week and will move his family to the Wabash this week, where he has a farm rented.

We are sorry to hear of the illness of Mr. and Mrs. Frank Oatbott, who have the flu, which is bordering on pneumonia. Their many friends here hope for their rapid recovery.

Harry McWort, of Muncie, who formerly lived at this place, came down last week and will visit his old friends for a few days.

George Laraway, who has bought the Jacob White farm, will move to it in a few days.

Mrs. Lena Isaacs, of Indianapolis, came down to this place Saturday, remaining until Sunday, the guest of relatives.

L. J. Estep, Cash Kern and Russell Whitecomb attended the mule and horse sale at Seymour Saturday and each bought a good horse.

Roy Gilbert and Mr. Quinn transacted business at Brownstown last Thursday.

Laban Coffman, while working with a pump last week, severely injured a finger, which was very painful.

Sam Anderson, our road superintendent, and J. W. White did some needed repair work on our roads last week. On account of the heavy hauling the roads are almost impassable.

Harry Meyer moved from his father's home place last week to the farm of Mr. Beatty at Longview. We regret to lose these good people.

Mrs. Mary Spray and her son, Hoyt, went to Brownstown last Thursday on business.

Will Carr moved his family to the George Phlegley place known as the Wilbur Anderson farm one day last week, where he will live indefinitely. Lynn Roberts and wife visited his

mother, Mrs. Alice Roberts, near Oak Grove last Sunday.

We wish to correct an error we made in our items last week, stating that Arthur Rucker was our deputy assessor. He was deputy last year and by his fair dealings made many friends.

A petition is now in circulation asking the township trustee to build a consolidated school house at Surprise. It is greatly needed as the old school-house is a total wreck—dangerous for children to be housed in, but this house should be built in the geographical center of the school districts represented and this center is at Acme. It is just two miles north to the White school, two miles to the Oak Grove district, two miles east to the Nigger Hill school-house, two miles south through Surprise to the Gorbet district and west two miles to the township lines dividing Hamilton and Pershing township. It is at the crossing of four good roads, one going to Seymour, one to Brownstown, one to Spraytown, and the other to Freetown. The school property at Surprise has only one acre, which would be too small for a consolidated school-house. We have a fine lot of two acres, just rolling enough to keep dry and where a basement can be built without seep or leakage.

William Rumph and wife, of Pleasant Grove, were guests of Mr. and Mrs. William Campbell Sunday.

Mrs. Minnie Vaneleve, of Seymour, came out Sunday to visit her parents, Mr. and Mrs. Henry Hehman, for the day.

Ralph Cole moved his family from Surprise last Saturday to the property of W. H. Wells. He has employment in Wells lumber yard at this place.

## URGES PEOPLE TO FIGHT CATARRH WITH SIMPLE HOME MADE REMEDY

Can Make Pint at Home and Costs Little, Says Leading Druggist of Covington, Ky., Who Has Made Special Study of Catarrh.

Says: Inflamed Nostrils Invite Influenza

People who say that catarrh is a disease not to be taken seriously are harshly rebuked by a Kentucky druggist who has for years been much interested in the growth of this loathsome, yet altogether too common disease.

He claims that the sore, tender, inflamed membrane of the nostrils and throat is a prolific breeding ground for germs—not only the germs of influenza, but many other kinds as well.

If people would only stop experimenting for two weeks and try a simple remedy made of Mentholized Arcine mixed with enough boiled water to make a full pint, half of the catarrh in this country would be abolished. It's really no joke for people

who don't know about this simple recipe to be constantly sniffing and snuffling, blowing and hawking, when all these obnoxious symptoms as well as the foul discharge can be made to disappear in a few days.

Ask for three-quarters of an ounce of Mentholized Arcine—that's all you need and after you have mixed it with enough boiled water to make a pint, gargle the throat twice daily and snuff or spray some up the nostrils, as directed.

The tender nostrils will soon lose their soreness, heal up, and be clean and healthy.

Important Reminder: Just as soon as anyone in the family gets a cold in the head, check it at once with this same medicine.

sidered, unless specifically exempted.

Another thing to remember is that the personal exemption allowed taxpayers by law has no relation whatever to the requirement to file return. This exemption is not to be considered until a person has figured out his net income and determined whether it was sufficient to require him to file a return. Then, if a return must be filed, he should read carefully the instructions for claiming exemption, and complete his return.

If in doubt on any point as to income or deductions, a person may secure free advice and aid from the nearest Internal Revenue office. Many banks and trust companies are also furnishing similar service during banking hours.

### Heavy Penalties in Law.

For failing to make a return on time the penalty is a fine of not more than \$1,000 and an addition of 25 per cent to the tax, if any. For making a false or fraudulent return the penalty is a fine of not more than \$10,000 or imprisonment not exceeding one year, or both; and, in addition, 50 per cent of the tax. There are other penalties for failing to pay tax when due and for understatement of the tax through negligence.

### Many Sources of Income.

Aside from what one may earn by his services, there are many other sources of income. If he sold any property during 1919 he must figure out the gain realized. If he rented buildings, land, apartments or rooms such rents must be considered taxable, and he may claim deductions for necessary expenses incidental to rents. Bank interest is a common source of income and is taxable whether withdrawn or not. Any amount of interest credited to a depositor is income to the depositor.

Interest on mortgages and notes is taxable; also bond interest received from corporations.

A taxpayer who cashed his insurance during 1919 must report as income any excess received over the total of premiums paid.

Members of partnerships or personal service corporations or beneficiaries of an estate or trust must report their shares of income distributable to them whether or not actually withdrawn.

Dividends of domestic corporations must be reported. Many other forms of income are taxable, unless specifically exempted.

## FOR ITCHING TORTURE

Use Antiseptic Liquid Zemo

There is one remedy that seldom fails to stop itching torture and relieve skin irritation and that makes the skin soft, clear and healthy.

Any druggist can supply you with Zemo, which generally overcomes skin diseases. Eczema, itch, pimples, rashes, blackheads, in most cases give way to Zemo. Frequently, minor blemishes disappear overnight. Itching usually stops instantly. Zemo is a safe, antiseptic liquid, clean, easy to use and dependable. It costs only 35c; an extra large bottle, \$1.00. It will not stain, is not greasy or sticky and is positively safe for tender, sensitive skins.

## CHILDLESS WOMEN

Please Read This Letter And See What Normal Health Will Do For You.

Lancaster, Pa.—"I was weak and run down, had pains in my head, back and stomach all the time, and bearing down pains. I had used Lydia E. Pinkham's Compound and it helped me, so my mother got me to try it again, and I am now feeling better than I have for years. We were married sixteen years and had no children, but now we have a fine big boy and we always call him our 'Pinkham' boy. The doctor was afraid of my case as I was 41 years old when the boy was born, but I came through all right. You can use this as a testimonial if you wish and I will certainly write to any one who writes to me about it."  
—Mrs. MARGARET G. HAVERCAMP, 529 Howard Avenue, Lancaster, Pa.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman and held in strict confidence.

### HUNTING THE ALLIGATOR

These alligator hunters, photographed in a marsh in Louisiana, are trying to get their bearings. They are after the hibernating alligators and use a long pole with a hook with which the animal is hauled from his place of concealment.

## MUSTEROLE—QUICK RELIEF! NO BLISTER!

It Soothes and Relieves Like a Mustard Plaster Without the Burn or Sting

Musterole is a clean, white ointment, made with the oil of mustard. It does all the work of the old-fashioned mustard plaster—does it better and does not blister. You do not have to bother with a cloth. You simply rub it on—and usually the pain is gone! Many doctors and nurses use Musterole and recommend it to their patients. They will gladly tell you what relief it gives from sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds of the chest (it often prevents pneumonia). 30c and 60c jars; hospital size \$2.50.
